

It's school time Red!

While visiting Debs, Durrall, Charly and Holly, Red wants to visit an English school. Standing in front of the school Red is **afraid**. (Angst= to be afraid)

David ask: "**What's the matter** Red?" Red says to David that he is scared. He thinks he has no friends. David has to come!

Finally he goes in. The subject is math. They make a little game. They start with a little **easy peasy** question. The one who can answer it will be the next teacher.

Holly can answer the first question, so she is the next teacher. She is asking to Red what is two plus two. Red **can't tell it** so David is going to help **him** (Red)

When Red is the teacher he is asking funny things. He asks the boys and girls for scissors, pencils, and rulers. They are making music with this things and to he rythem they make math.

to be afraid

easy peasy

to tell

him/ her

What's the matter? _____

This is easy peasy! _____

He can't tell it! _____

Does anybody has...._____

I have to _____ I can _____
